Aurora HC133 Emulator User Manual

1. System Requirements

Microsoft® Windows 98 or above. The emulator uses Flash® Player 9. No installation is required the emulator will run straight from the CD although you can save the emulator on to your PC by simply copying and pasting the CD contents to your desired location.

2. Starting the Emulator

Locate and open the folder 'HC133 EMULATOR' on the CD or where you have saved the content on your PC. Four files will be visible , open the flash file ' HC133 EMULATOR.exe' and the emulator will launch in its own window.

3. Using the Emulator

i) The emulator works identically to the actual calculator.

ii) Using your mouse or input device click on the 'ON' key on the calculator, now simply continue to click on the buttons as if you were using the actual calculator.

iii) The LCD screen will show the pressed keys and answers accordingly.

iv) There is an additional calculation box to show the chain of a calculation this can be opened and closed by clicking on the 'SHOW' or 'HIDE' button.

v) To change the size of the emulator window on screen which has a default setting of full screen, press the escape key (Esc) on your keyboard when the emulator is running, now you can change the position and size of the window the emulator appears in by clicking and dragging the sides of the window.

vi) To exit the emulator click on ‘CLOSE’

4. Additional Documents

Also contained in the folder ‘HC133 EMULATOR’ there are some additional PDF files; the ‘HC133 EMULATOR USER MANUAL.pdf’ which is this user guide and two other PDFs ‘HC133 TEST SHEET.pdf’ and ‘HC133 ANSWER SHEET.pdf’ these are provided to assist with the teaching and introduction of calculators to younger students and enable them to understand the keys and applicable functions.

5. Authorised Usage

This emulator software is protected by copyright and its use is licensed by Aurora Electronics (UK) LTD. The emulator software is licensed for use as a teaching aid and can only be used in conjunction with the use of Aurora calculators. The emulator is licensed for use across a single site and can be installed on an unlimited number of PCs on the site or made available across the site via a network. The test and answer sheets may be used, edited, copied and reproduced by the user in conjunction with the use of Aurora calculators
