

## EMU-1 Calculator Emulation Software

### EMU-1

- Interactive software supplied on CD-Rom
- Emulates the Aurora HC133, HC106 and EC240
- Use with interactive whiteboards and projectors
- Ideal teaching aid for calculator demonstrations
- Improves class participation and understanding
- Simple to install and easy to use
- Compatible with Windows® operating systems
- Multi-user single site license included.

The EMU-1 is calculator emulation software, which when combined with an interactive whiteboard and projector will beam a large electronic replica of the Aurora HC133, HC106 or EC240 calculator onto the whiteboard. This giant working calculator is viewable to the whole class and can be used by the teacher and students interactively. The whiteboard calculator makes it much easier to demonstrate a calculation and also makes it much easier for the students to follow the keystrokes and calculation chain. The emulators provide a great solution for introducing calculators to Key Stage 1 and 2 pupils and are designed to fit into existing lesson plans and make the teaching of correct calculator usage simple and easy to follow.

The emulator is licensed for use on a single site basis and can be used by an unlimited number of users on the site. The software can be installed on an unlimited number of PC's on the site or downloaded onto a server and made available across the sites network. Compatible with Windows® operating systems (XP, Vista, 2000, 7 and 8). The EMU-1 is also included free of charge with the CK30 and CK12 and CK-ECO class sets.

**HC133**

An ideal calculator for primary school use, it is robustly designed, has a large clear display to enable easy viewing, and is designed for ease of use with a spacious keypad and large numerals.

**HC106**

Robustly designed with a large clear display and entirely solar powered this colourful calculator has multi-coloured keys for ease of use and a protective slide on hard case.

**EC240**

Made from recycled plastic, with recycled packaging and totally solar powered requiring no battery. An excellent calculator with an environmentally friendly message.
