

DC448 Desk Calculator

The Aurora DC448 is a general purpose desk calculator, which has a large 12 digit LCD display to enable easy viewing. The calculator is designed for ease of use with durable hard plastic keys, a large addition key and Aurora's patented long equals bar to enable speedy calculations. There is also a programmable tax function allowing a tax rate to be set and stored by the user and then simply added or deducted by pressing the tax +/- keys, this is ideal for adding or subtracting VAT. The patented DirecKey feature means that this calculator turns on when any key is pressed, this key stroke will also register. The DC448 is solar powered with a battery back-up and is excellent value for money.
