

DC758 Desk Calculator

The Aurora DC758 is a large general purpose desktop calculator, which has an angled 12 digit LCD display to enable easy viewing. The calculator has large hard plastic keys and a durable front case made of metal. Features include a decimal point selector, 'Add mode' for working with money, a round up or down selector and a programmable tax function which allows a tax rate to be set and stored by the user and then simply added or deducted by pressing the tax +/- keys, this is ideal for adding or subtracting VAT.

Only available to order

MOQ	3000 units
