

## PC108 Handheld Calculator

The Aurora PC108 is a very useful pocket sized general purpose calculator, which has a large 12 digit LCD display to enable easy viewing. The calculator is designed for ease of use with responsive soft rubber keys, a large addition key and Aurora's patented long equals bar to enable speedy calculations. There is also a programmable tax function allowing a tax rate to be set and stored by the user and then simply added or deducted by pressing the tax +/- keys, this is ideal for adding or subtracting VAT.
