

SP1000 Paper Shredder Sharpening & Lubrication Sheets

SP1000

- 12 Sheets per pack
- Sharpens blades
- Lubricates blades
- Reduces noise
- Reduces paper dust
- Prevents rusting
- Biodegradable

The Aurora SP1000 sharpening and lubrication sheets are the ideal solution to help keep your shredder in optimal working condition and prolong your shredders life. Each sheet contains a natural grinding powder which with regular use helps to keep the cutting blades sharp and clean. In addition each sheet is impregnated with just the right amount of shredder lubricant to help keep the moving surfaces well greased and operating smoothly.

The SP1000 contains 12 sheets, simply insert one complete sheet into the shredder and shred normally, once the sheet is shredded place the shredder into reverse for a short period to complete the maintenance process. The SP1000 is easy to use, creates no mess unlike shredder oil and is compatible with all shredders that require lubricating. The recommended usage is at least once a month to maintain maximum shredder performance.
